

Claro Learning Access Suite

Claro Learning Access Suite brings powerful access solutions to students and teachers.

Fully updated for 2013, Claro Learning Access Suite offers even more software tools to assist students teachers and administrators.

A unique collection of assistive technology and study skills support software specifically bundled together to create the ideal suite for use in education. The suite offers new opportunities for students, teachers, administrators and home users, including students who are learning English as an additional language.

Claro Learning Access Suite includes a range of facilities to make reading, writing and studying so much easier. It has the ClaroRead literacy support tool, including text to speech features and language assistant, ScreenRuler coloured reading ruler, Claroldeas concept mapper, WordBanks customised on-screen word banks, ClaroCapture captures media from any document and webpage, ScreenMarker on-screen marker. There is also the option to add Nuance's Dragon NaturallySpeaking 12 speech recognition software to the suite.

"The speaking part is really good, I like it lots, it is good to hear your work being read back in different voices".

Erin, Gulval Primary School

Claro Learning Access Suite can revolutionise paperwork. Teachers will find that they benefit from the powerful tools which speed up text production. Teachers can incorporate other Claro tools, such as the concept maps and WordBanks, into their lessons and use them with their interactive white boards. They will also appreciate the fact that these same tools can help them make short work of the mountains of administration which are now part and parcel of their job.

"The word bank saves you loads of time. You can do your thinking about the words in one go and then use the words to help you to write things much easier."

Tyler, Gulval Primary School

Claro Learning Access Suite will enable schools to meet the requirements of the Disability Discrimination Act (DDA) and other legislation and will provide universal access to information and text. This means that pupils who have poor literacy skills, where English is not their first language, or who have visual impairments will be able to access information, take notes, read web pages and write essays with greater ease.

On site training for every school

A 15 day trial version of the Learning Access Suite is available. (excluding Dragon)

"I much prefer using the computers than books and paper, it is much quicker and easier. I like learning like this".

Danny, Gulval Primary School

Microlink PC are one of the distributors of Claro Learning Access Suite and are involved in supporting the software and ensuring that users get the most from this powerful software suite. Microlink, the UK's largest provider of disability solutions, is offering dedicated technical support and training, specialist peripherals and advice. They can also customise Claro Learning Access Suite to meet individual needs.

As well as supporting learners who struggle with print, the suite is proving popular for teaching English as a second language. At any one time there are 150,000 overseas students studying at UK universities as well as many younger learners who are recent arrivals to the UK. Claro Learning Access Suite lets learners see the relationship between the spoken and written word as it offers both speech recognition and a facility to read back text.

The Learning Access Suite can be installed on a school network. To encourage pupils to use it outside school, there is a special deal for home use. Once a school has taken out a subscription, then parents are entitled to buy Dragon and the other tools at a specially discounted price.

Claro Learning Access Suite

Multi sensory software enhancement

Included in the Claro Learning Access Suite

ClaroRead Standard

Reading & writing support

Speaks practically any on-screen text out loud, and is perfectly integrated with Microsoft Word.

Claroldeas

Concepts & ideas mapper

An easy-to-use tool to support the creation and editing of concept or idea maps using visual and audio components.

ClaroCapture

Capture text, images & audio

ClaroCapture grabs text, images, screenshots, files, recordings and references and compiles them into one single, handy project file.

Oska WordBanks

WordBank creation tool

Word banks are good tools for sentence building where vocabulary is predictable and defined or limited.

ScreenRuler

Coloured reading ruler

Strip or ruler across the screen, which can have the contrast changed and have the background greyed, coloured or dimmed out.

ScreenMarker

On-screen marker images

ScreenMarker provides on-screen marker images allowing areas of the screen to be highlighted.

Speech recognition optional add on:

Dragon NaturallySpeaking Pro V12
